

SUMMARY

The HYMAR VISION is a modern human-machine touch-interface (HMI) that offers intuitive monitoring and control of your power system. With real-time data visualization, it gives operators clear insight into system performance and status.

KEY SPECIFICATIONS

VISION

Display size	12,1"
Resolution	1280x800
Dimensions (LxWxH)	306x212x34mm
Weight	2,1 kg
Degree of protection	IP65

SPECIFICATIONS

KEY FEATURES

- High degree of protection
- Touchscreen
- Very high sunlight readability
- Temperature and shock resistant

VISION

Display size	12,1" 16:10 aspect ratio
Resolution	1280x800
LCD type	TFT active matrix
Luminance	500 cd/m ²
Backlight	LED, auto-dimmable
Viewing angle	V= ±89° H= ±89°
Contrast ratio	1000:1
Loudspeakers	Integrated
Degree of protection	IP65
Supply voltage	8-32 V
Ambient temperature range	-30 to 70 °C
Weight	2,1 kg
Dimensions (LxWxH)	306x212x34mm
Application	Marine, Industrial, Heavy-duty
